About **PantoGlasses**

Dear Valued Customer,

As 4th generation optician here in Norway, I am proud to present to you the Panto Brand and Panto Sun.

Since making the panto from scratch for my craft certificate in 1983, as my father before me in 1956, I have been totally fascinated by this classic lens shape and unique design.

It brings back the iconic eyewear style of a past century, known for its distinctive rounded although not circular lenses and the slightly flattened top. By nature, the glasses are quite small, typically 47 mm wide lenses. Opto-technically this gives the thinnest and lightest glasses you can get. After disappearing from the market for decades, PantoGlasses has revived the classic true panto design, combining vintage aesthetics with modern craftsmanship.

Compare the shape and size of the human orbita to the true panto. It is obvious why Panto Glasses is the natural frame around the eyes, "fitting just any person" and more popular than ever. We are pleased to offer the huge selection of PantoSun with PowerOpti HMC coated lenses. Panto is more than just glasses, it is lifestyle.

Geir Sivertzen

*CEO and founder of
PantoGlasses AS Ltd*

OVERVIEW

PantoGlasses is introducing PantoSun, non-prescription sunglasses for sun protection and fashion. The frames are the same as used for the PantoGlasses prescription eyewear: optical grade frames in acetate, Stainless Steel and Titanium

Panto has achieved widespread popularity in the market. Both consumers and optometrist have challenged us to launch the range of panto sunglasses to make them more easily available, instead of just ordering and producing the sunglasses one by one.

We offer a huge variety of PowerOpti lens types to suit your customers unique needs and lifestyle. Whether they need filter-/sunglasses for daily wear, outdoor activities, driving, the café or the beach, a variety of alternatives are available for PantoSun. To offer an individual style of eyewear, and maybe also more than just one pair or one color, this is important both for the customer and the optometrist.

OXFORD

The original, first and authentic Panto shape, inspired by the University of Oxford and loved worldwide. Will fit most every face, both for prescriptions and as sunglasses.

Materials:

Stainless steel with optional acetate

Windsor rings

Temple options:

Regular or curled (gold only)

Sizes:

35, 39, 43, 47, 49 mm (47 mm = "one-size-fits-all")

Colors:

Silver, Silver + Brown Windsor, Gold,
Gold + Brown Windsor

PANTO FRAMES

Model Avatar

AVATAR

A classic True panto shape in stainless steel with a sleek double bridge – timeless and lightweight. This model also features Flip-Up clip for easy transition between clear lenses and sunglasses, also known as tunnel glasses. Enjoy Avatar as a standalone frame, or explore our clip-on options for added versatility.

Size:

47mm, 51mm

Available in Black and Gold colors.

AVATAR FLIP-UP

True rounded Panto shape in stainless steel with a double bridge. Also known as “tunnel glasses,” this model features flip-up clips for easy transitions between clear lenses and sunglasses – loved by drivers.

Size:

47 mm, 51 mm

Colors: Black + Black clip with polarized lenses, Gold + Black clip with polarized lenses

Clip Options:

- Yellow Calichrome: ideal for night driving, fog, and snow
- 80% Polarized: high sun protection
- 50% Polarized: for medium-light conditions
- Amber lenses: for enhanced contrast
- +1.00 Near Vision Flip: reading enhancement
- +0.50 “Fun Fact” – perfection for sighting for pistol shooters

CHICAGO

Classic acetate Panto named after the 3rd largest city in the US. A favorite among businessmen, creatives and intellectuals, with a **rounded top**.

Sizes:

45, 47 mm

Colors:

Dark Brown (DB), Light Brown (LB),
Matte Dark Brown (MB), Honey Brown
(HB), Crystal (CR)

PANTO FRAMES

Model Rome

ROME

Features a finer material thickness and a slightly flatted top. Named after Italy's capital, a hub of fashion and design.

Colors

Dark Brown (DB), Light Brown (LB), Matte Dark Brown (MB)

PANTO FRAMES

Model Paris

PARIS

Acetate front with metal temples and bridge. Silicone nose pads on adjustable arms for comfort. Named after the fashion capital of the world

Colors:

Dark Brown (DB), Light Brown (LB)

PANTO FRAMES

Model Boston

BOSTON

Somewhat heavier acetate model with defined lines and flatted top. Inspired by Japanese minimalism.

Size:

45 mm

Colors:

Dark Brown (DB), Black (BL),
Crystal (CR), Light Brown (LB)

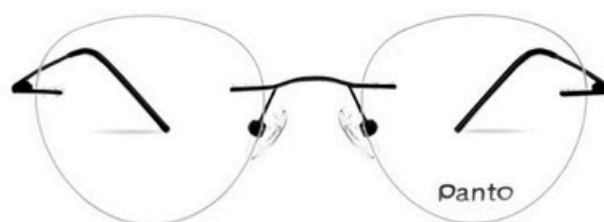

MONACO

The fine uni-sex titanium design has invisible hinges and the universal mounting of two fine holes drilled on each side of the lens. While the panto shape RL33 is the Signature design, the frames are of course perfect also for the more than 20 other shapes available.

Colors:

Gold, Silver, Grey, Black

PANTO FRAMES

Model Silicon Valley

SILICON VALLEY

Unlike modern design of rimless frames, this is the design of the early 1900, with today's quality. Steve Jobs, the founder of Apple was known for wearing this style of glasses, although his were absolutely circular. This model is awesome with the RL33 Panto lenses which are slightly flattened on top, while both circular (RL26) and oval lenses (RL17) are great options. Since the attachment from bridge and temples is oblique, square shapes of the lens is no option. Available as the grey-silver model and golden color.

Colors:

Grey (GY), Gold (GO)

PANTO FRAMES

Model Ti202

Cologne

Ti202 Cologne

With a weight of no more than 2,02 gram for the frame, these are the Worlds Lightest Glasses. High Memory Titanium gives you eyewear that is as close you can get both visually and weight-wise to wearing contact lenses. Very popular in the RL33 Panto shape, as well as RL28 squarer design and 20+ other shapes. As the rest of the PantoGlasses range, these are also super cool as sunglasses. The titanium-colored grey color is very neutral and loved by all.

Colors:

Titanium-Grey (GY)

MANHATTAN

This acetate model in size 39-30 is the first of 4 models in the Panto NANO Range, with #39 lenses, a wide bridge and a wide area to the hinges part which we have not seen in the market for decades. Perfect for thinkers, creators, and style leaders. The Dark Brown model is probably the most selling, while the Honey Brown has a warm color that is loved by so many. Inspired by New York's bold energy. Well suited also as reading glasses where you can easily look over the top

Colors:

Dark Brown (DB), Honey Brown (HB)

COPENHAGEN

Twin of Manhattan with a flatter top. This acetate model is also a nod to the bigger Panto Heritage model Boston. Named after Denmark's capital, honoring minimalism and utility. The Nano models are for those who dare to stand out from the crowd, to have their own unique style.

Colors:

Dark Brown (DB), Honey Brown (HB)

STOCKHOLM

Nano-sized stainless steel model inspired by Swedish traditions. The size of the lenses is no more than 39 mm for the Panto Nano range, resulting in the unique style that really catches attentions. Since the lenses are small in diameter, the glasses are also very light and thin. Clean and elegant. Gold color is very stylish. The black, or DarkGun color is as classic as it gets.

Colors:

Gold Stainless Steel (GO), Grey Stainless Steel (GY)

OSLO

True Panto was initially produced in metal, then acetate models in exactly the same shape were introduced. Panto Nano model Oslo combines acetate and metal in a unique hybrid design. Reflects Norway's balance of tradition and progress, based on the panto shape that was introduced in Norway in the 1930's. These glasses are unique in a global perspective, really something for those who admires style and dare to be different. The two colors Honey Brown & Gold Metal and Dark Brown & Black Metal offers two totally different expressions

Colors:

Grey/Dark Brown (GB), Gold/Honey Brown (GH)

DRIFTWOOD

Precision-milled from genuine wood laminates, our Wooden Range combines natural beauty with modern optical engineering. Flexible hinges ensure comfort, while seamless transitions between layers show the mastery of high-tech CNC craftsmanship. Perfect for those whose lifestyle and passions are rooted in nature — from forest owners and carpenters to architects and eco-minded creatives. The lenses of the wooden laminate frame should to be wiped clean with micro-cloth or a damp cloth.

Size:

47 mm

Colors:

Walnut (WN), Driftwood (DW)

WALNUT

Precision-milled from genuine wood laminates, our Wooden Range combines natural beauty with modern optical engineering. Flexible hinges ensure comfort, while seamless transitions between layers show the mastery of high-tech CNC craftsmanship. Perfect for those whose lifestyle and passions are rooted in nature — from forest owners and carpenters to architects and eco-minded creatives. The lenses of the wooden laminate frame should to be wiped clean with micro-cloth or a damp cloth.

Size:

47 mm

Colors:

Walnut (WN), Driftwood (DW)

PANTO KIDS

oXo-Baby

TinyEyewear™ oXo (0-3 yrs) – Baby-first sunglasses with impact-resistant polycarbonate (PC) UV400 lenses (polarized), an ultra-light frame, soft saddle bridge with no loose parts, and curl temples that stay put. Comfortable for little faces, easy for parents, and gift-ready

Colors:

(GO) Gold

(SI) Silver

(GR) Green

PANTO KIDS

oXo – Junior Metal

oXo

The oXo range brings the timeless Oxford metal design to smaller faces. Classic and elegant, these frames are perfectly proportioned for young wearers.

Available in traditional gold and silver, as well as fresh, playful shades of red and blue, oXo offers both sophistication and fun. Sizes 39, and 43, ensuring a perfect fit from infancy through the early school years.

With their rounded – but not circular – design, oXo frames are ideal for any prescription and remain a popular choice for quality sunglasses

Size: 39 mm, 43mm

Colors:

Gold (GO), Silver (SI), Green (GN)

Gold (GO),- Gold + Brown Acetate (GB), Silver (SI), Blue (BU), Red (RD)

PANTO KIDS

oYo – Junior Acetate

oYo

The oYo range is crafted in acetate, inspired by the iconic Chicago model. These frames feature soft gradient crystal tones alongside the classic light brown, combining modern flair with timeless style.

Sizes: 39 mm, 43 mm

Colors:

Blue Crystal (BC), Violet Crystal (VC),
Pink Crystal (PC), Light Brown (LB)
